

Alias [Jeronimo](#)

Jeroen Raymundus Mesters

Highest degree:

Doctorem mathematicae et disciplinarum naturalium, Leiden University (1994)

Current position:

Deputy, senior Scientist and Lecturer, Coordinator Master's Program Infection Biology

Address:

Institute of Biochemistry, University of Lübeck, Center for Structural and Cell Biology in Medicine, Ratzeburger Allee 160, D-23538 Lübeck, Germany

Numbers:

+49-(0)451-31013105 (Telephone), +49-(0)451-31013104 (Facsimile)

E-mail:

jeroen.mesters@uni-luebeck.de

Current interests:

Crystallogenesi; Macromolecular Crystallography; Structural Neurobiology; Infection biology

Raised funds:

DFG, Zuschuss, ME 2741/3 - ICCBM15

DFG, Sachbeihilfe, ME 2741/2 - Viral-gestörter zerebraler Metabolismus (Selfish Brain, KFO-126)

DFG, Sachbeihilfe, ME 2741/1 - Kdo-Aktivierung und -Transfer in *A. aeolicus*

DAAD, PPP Tschechien, D/03/44441 - Chemical reactions and interactions inside protein crystals

DAAD, PPP Tschechien, Project-ID 57219159 - 3D-Biotech-Enzymologie

Raised funds > 230 k€

Role(s):

Visiting Professorship in Biophysics, University of South Bohemia at Ceske Budejovice (since 2002)

Treasurer of the International Organization for Biological Crystallization (IOBCr; since 2014)

X-ray radiation-, biological- and laboratory-safety officer

Member of the central committee for science and knowledge transfer

Webmaster

Employment:

- 02/2003 – present Deputy, senior Scientist and Lecturer (permanent position), Institute of Biochemistry (Director: Prof. Dr. Dr. h.c. R. Hilgenfeld) at the University of Lübeck
- 02/2013 – 01/2014 Part-time Researcher (BMBF project 'TiBioS'), Department of Cardiac and Thoracic Vascular Surgery (Director: Prof. Dr. H.H. Sievers), University Clinic of Schleswig-Holstein, Campus Lübeck
- 12/1998 – 01/2003 Researcher (permanent position since May 2000), Structural Biology and Crystallography group (Head: Prof. Dr. R. Hilgenfeld) of the Institute of Molecular Biotechnology (*i.e.* Fritz Lipmann Institute) in Jena
- 09/1994 – 11/1998 Post-Doc (European Commission 'Human Capital and Mobility' and BMBF 'Molekulare Naturstoffforschung') at the Structural Biology and Crystallography group (Head: Prof. Dr. R. Hilgenfeld) of the Institute of Molecular Biotechnology in Jena

Education:

- 08/1987 – 06/1994 Ph.D. studies at Leiden University (with Dr. B. Kraal and Prof. Dr. L. Bosch). Degree: *doctorem mathematicae et disciplinarum naturalium*
Title Ph.D. thesis: GTP binding proteins and polypeptide chain elongation
- 09/1981 – 07/1987 Biochemistry studies at Leiden University. Degree: *doctorandus*
Main topics: Biochemistry, Bioreactor-Technology (at Delft University of Technology) and Computer Programming

Publications 2000–2015 (Total ±46 publications; ±1611 times cited, cumm. cit. index ±245, average. cit. per item ±35, h-index 20):

- Qin Z, Xiao Y, Yang X, [Mesters JR](#), Yang S & Jiang Z: A unique GCN5-related glucosamine N-acetyltransferase region exist in the fungal multi-domain glycoside hydrolase family 3 β -N-acetylglucosaminidase, *Scientific Reports* 5, 18292 / DOI: 10.1038 (2015)
- Einspahr H, Smatanova IK, Betzel C & [Mesters JR](#): Introduction to selected articles from the 15th ICCBM, *Acta Cryst.* F71, 805 (2015)
- Sanchez-Vallet A, [Mesters JR](#) & Thomma BPHJ: The battle for chitin recognition in plant-microbe interactions, *FEMS Microbiology Reviews* 39, 171-183 (2014) (*First published online: 23 December 2014*) (**Editors' Choice**)

Oral Presentations 2001-2015:

Snapshots of a journey through time in Biocrystallography. Summerschool biophysics and systemsbiology, July 19 - 22, 2015, Nove Hradý
High-throughput, structure- and fragment-based techniques in lead compound identification, Summerschool biophysics and systemsbiology, July 19 - 22, 2015, Nove Hradý
Crystallisation techniques: How do they work? J.-M. Garcia-Ruiz & J.R. Masters, International School on Biological Crystallization (ISBC), May 24-29, 2015, Granada
Conventional Crystallization and its Modifications. International School on Biological Crystallization (ISBC), May 24-29, 2015, Granada
Crystallography and Molecular Modeling, Cluster of Excellence "Inflammation at Interfaces", Indien Summer School, November 19 - 21, 2013, Kiel
Drug Design, GRK 1727 "Modulation of Autoimmunity" Seminar Series, November 5, 2013, UK-SH, Lübeck
Crystallisation techniques: How do they work? J.-M. Garcia-Ruiz & J.R. Masters, International School on Biological Crystallization (ISBC), May 26-31, 2013, Granada
Conventional Crystallization and its Modifications, FEBS Advance Course „Advanced methods in protein crystallization V“, June 22 - 29, 2012, Nove Hradý
On the use of Additives in Protein Crystallization, FEBS Advance Course „Advanced methods in protein crystallization V“, June 22 - 29, 2012, Nove Hradý
Mensch versus Krankheitserreger - Ein unendliches Wettrennen, Tag der Wissenschaft, St. Petri zu Lübeck, 29 Oktober 2011, Lübeck.
Röntgen, Laue, and Bragg - X-Ray Crystallography, Protein Crystallization Workshop, University of Copenhagen, January 10-14, 2011, Copenhagen
Screening - Do's and Don't's, Protein Crystallization Workshop, University of Copenhagen, January 10-14, 2011, Copenhagen
Vapour Diffusion Crystallization, International School on Protein Crystallization (ISPC) at ICCBM13, October 10-16, 2010, Dublin
Interpretation of the Crystallization Drop Result, PEPC-7, EMBL, August 23-31, 2010, Hamburg

Conventional Crystallization and its Modifications, FEBS Advance Course „Advanced methods in protein crystallization IV“, June 25 – July 2, 2010, Nove Hradý

On the use of Additives in Protein Crystallization, FEBS Advance Course „Advanced methods in protein crystallization IV“, June 25 – July 2, 2010, Nove Hradý

Wie entstehen neue Influenzaviren, Öffentlicher Vortrag in der Vertretung des Landes Schleswig-Holstein beim Bund, Exzellenzcluster Entzündungsforschung, 21. April 2010, Berlin

Crystal growth techniques: Vapor diffusion, Microbatch under oil, Counterdiffusion, The ISBC *ensemble*
A. McPherson, J. Ng, J.R. Mesters, J.A. Gavira, International School on Biological Crystallization (ISBC), May 18–22, 2009, Granada

On the use of seeding techniques, International School on Biological Crystallization (ISBC), May 18–22, 2009, Granada

Conventional Crystallization and its modifications, FEBS Advance Course „Advanced methods in macromolecular crystallization III“, October 3–10, 2008, Nove Hradý

Pre-crystallization stage: handling of protein solutions, International School on Protein Crystallization (ISPC) at ICCBM12, May 3–9, 2008, Cancun

Membrane protein crystallization, School of Crystallization at the Laboratory for Structural Biology of Infection and Inflammation, July 2007, Hamburg

Nucleation and growth of protein crystals, School of Crystallization at the Laboratory for Structural Biology of Infection and Inflammation, July 2007, Hamburg

Pre-crystallization stage: bio-informatics & protein preparation, School of Crystallization at the Laboratory for Structural Biology of Infection and Inflammation, July 2007, Hamburg

Glycosylated proteins: challenges in crystallization, Practical Protein Crystallization 9 (PPC9), November 13–17, 2006, Uppsala

Conventional techniques and their modifications, Practical Protein Crystallization 9 (PPC9), November 13–17, 2006, Uppsala

Pre-crystallization stage: bioinformatics and protein preparation, Practical Protein Crystallization 9 (PPC9), November 13–17, 2006, Uppsala

Conventional crystallization methods and their modifications (using oils), FEBS PLC „Advanced methods in macromolecular crystallization II“, October 6–13, 2006, Nove Hradý

Structural evolution of Ritonavir Resistance in HIV-1 Proteinase, Fourth ICAV International and First Pacific Rim ICAV Meeting, September 23–25, 2006, Brisbane

Glutamate carboxypeptidase II, a drug target in neuronal damage and prostate cancer, Centre de Recherche du CHUL (Université LAVAL), August 19, 2006, Quebec

Protein glycosylation, a problem in crystal growth?, International School on Protein Crystallization (ISPC) at ICCBM11, August 14–16, Quebec

Pre-crystallization stage: bio-informatics & protein preparation International School on Protein Crystallization (ISPC) at ICCBM11, August 14–16, 2006, Quebec

Interest of macromolecular crystallization in pharmaceutical industry, International School on Protein Crystallization (ISPC), May 22-26, 2006, Granada

Post-translational modifications and additives in protein crystal growth, International School on Protein Crystallization (ISPC), May 22-26, 2006, Granada

Structural Evolution of Ritonavir-resistance in HIV-1 Proteinase, International Workshop on Discovery of Antiviral Compounds, April 26-29, 2006, Lübeck

The good, bad and ugly: About proteins, buffers and crystals, Vizier Workshop, February 2006, Leuven

Domain design and Prediction, Vizier Workshop, February 2006, Leuven

Following the emergence of HIV drug resistance mutations by X-ray crystallography, HASYLAB Users Meeting, January 27, 2006, Hamburg

Model building, Vizier Training Workshop on Structural Biology, December 15-16, 2005, Hamburg

EF-Tu, a GTPase switch molecule in protein biosynthesis as an antibiotic target, Bayer HealthCare, October 2005, Wuppertal

Additives in crystal nucleation and growth, Crystallization Course (CC2005), October 2005, Nove Hradý

Diffraction theory, Crystallization Course (CC2005), October 2005, Nove Hradý

The principles of crystallography, Crystallization Course (CC2005), October 2005, Nove Hradý

Conventional crystallization methods and their modifications (using oils), Crystallization Course (CC2005), October 2005, Nove Hradý

Macromolecular Crystallography, 1st EuCheMS School on Protein chemistry (FECS), January 9 -14, 2005, Bressanone/Brixen

Ritonavir-resistance evolution, a structural exploration, joint HIV-PR inhibitors and Virulence Meeting, EU 5th Framework Projects, October 2004, Budapest

Carboxy- and aminopeptidases with dinuclear zinc centers: Structures, catalytic mechanism and inhibition, SFB 436 Microsymposium, October 2004, Jena

Conventional crystallization methods and their modifications (using oils), FEBS PLC „Advanced methods in macromolecular crystallization“, October 2004, Nove Hradý

Bio-Crystallography in Lübeck, 1st Baltic Sea Biocrystallography Meeting (BSBC1), September 2004, Travemünde

Ritonavir-resistance evolution, a structural exploration, HIV-PR inhibitors Meeting, EU 5th Framework Project, May 2004, Heidelberg

Glycosylation can be important for crystallization, DGK DGKK Meeting March 2004, Jena

Phasing, Crystallization Course (CC2003), October 2003, Nove Hradý

Diffraction theory, Crystallization Course (CC2003), October 2003, Nove Hradý

The principles of crystallography, Crystallization Course (CC2003), October 2003, Nove Hradý

Structure of Membrane Glutamate Carboxypeptidase II, a Multifunctional Protein in Prostate and Brain, SFB604 and GK768 Microsymposium, September 2003, Jena

Bio-Crystallography in Lübeck, 6th Heart of Europe Meeting on Bio-Crystallography, September 2003, Wittenberg

HIV PR Inhibitor with Broad Specificity Displays Unusual Binding Mode, Department of Biochemistry and Molecular Biology, University of Hamburg, January 2003, Hamburg

The role of zinc in protein structure and function, Berliner Herbsttagung, Hahn-Meitner-Institut, November 2002, Berlin

Crystallization and Harvesting Tips, XIX IUCr Congress - Pre-Conference-Workshop, August 2002, Geneva

EF-Tu-aurodox structure explains enhanced GTPase activity, GTPasen als zentrale Regulatoren zellulären Funktionen (DFG Schwerpunktprogramm), September 2001, Berlin

Public relations / Presentations:

Protein Cave - Life Sciences;

50 Jahre Uni Lübeck, Institut für Geschichte der Medizin, Königstr., 05. Nov., 20:30 - 22 Uhr

1. Lübecker Nacht der Labore, Auditorium Maximum, 2. Juni 2012, Lübeck

4. Nacht des Wissens, DESY, 29. Oktober 2011, Hamburg

8. Lübecker Hochschultag, Musik und Kongresshalle (MUK) - Raum: Künstlergarde, 26. November 2009, Lübeck

3. Nacht des Wissens, DESY, 7. November 2009, Hamburg

7. Lübecker Hochschultag, Musik und Kongresshalle (MUK) - Raum: Künstlergarderobe, 15. November 2007, Lübeck

2. Nacht des Wissens, DESY, 9. Juni 2007, Hamburg

Tag der deutschen Einheit, Exzellenzkluster Ausstellung, Oktober 2006, Kiel

Post-Doctoral Education:

Biophysik ionisierender Strahlung und Strahlenschutzgrundkurs, Isotopenlabor, Uni Lübeck, 27 Feb - 15 März, 2013

X-ray radiation refresher course at Norddeutsches Seminar für Strahlenschutz Kiel, February 11, 2013

DSC training course at Microcal, Milton Keynes, May 13-15, 2008

X-ray radiation refresher course at Norddeutsches Seminar für Strahlenschutz Kiel, February 25, 2008

ITC training course at Microcal, Milton Keynes, November 6-8, 2007

Didactics course at Lübeck University, October 31, 2007

Biological safety course at Lübeck University, October 13-14, 2003

X-ray radiation safety course at the LPS in Berlin, November 12-15, 2001

Training course rotating anode FR591 at Nonius BV, Delft, January 6-8, 1998

Teaching:

Infection Biology

Virology (Master students)

Macromolecular Crystallography (Master students)

Molecular Life Science

Introduction Structure Analysis (Bachelor students)

Biochemistry (Bachelor students)

Biochemistry Practical Course (Bachelor students)

Macromolecular Crystallography (Master students)

Structural Aspects of Protein Biosynthesis (Master students)

Virology (Master students)

Medicine

Biochemistry Seminars

Biochemistry Practical Course

Crystallogenesis (* Course organization and management)

ICCBM14, September 2012, Hunstville*

Protein Crystallography Workshop Practicals, January 2011, University of Copenhagen

PEPC7, October 2010, EMBL, Hamburg

ICCBM13, September 2010, Dublin*

ICCBM12, May 2008, Qancun*

School for Crystallization at the Laboratory for Structural Biology of Infection and Inflammation, July 2007, Hamburg*

Practical Protein Crystallization PPC9, November 2006, Uppsala

ICCBM11, August 2006, Quebec*

ISPC/ISBC, May 2006, May 2009, Granada

1st FEBS-INSTRUCT practical crystallization course (2014) in the middle EU "Advanced methods in macromolecular crystallization VI"

FEBS Advanced Course, October 2004, October 2006, October 2008, June 2010, and June 2012, Nove Hradý (CZ)

DGK-DGKK Crystallization Course, March 2004, Jena*

ICCBM9, March 2002, Jena*

CC2001, CC2003, CC2005, October of each year, Nove Hradý

Conference chair:

ICCBM15, September 13-20, 2014, Hamburg

Last Century Oral Presentations and Posters:

- Mutations in the fireman's grip of HIV-1 protease. 4. Jenaer Proteolysetag, Erfurt, October 14, 1999.
- Mutations in the fireman's grip of HIV-1 protease. 2nd Heart of Europe Meeting on Bio-Crystallography, Lübben Spreewald, September 30 to October 2, 1999.
- Refined structure of a model compound for the aminoacylated 3'-end of tRNA, bound to EF-Tu. European Meeting on Elongation Factors, Kemer, Turkey, September 25-28, 1999.

Crystal structure of a ternary complex of elongation factor Tu, a GTP analogue, and a minimal model for aminoacyl-tRNA. The Ribosome Conference, Helsingor, June 13-17, 1999 (Poster).

Peptidomimetic inhibitors of HIV-1 proteinase. Academy of Science, Praha, Czech Republic, April 18-22, 1999.

Stereochemical details of the interaction between HIV-1 proteinase and peptidomimetic inhibitors. 3. Jenaer Proteolysetag, Jena, December 11, 1998.

Four diastereomeric peptidomimetic inhibitors of HIV-1 PR, 1st Heart of Europe Meeting on Bio-Crystallography, Walkmühle Mühlital, October 8-10, 1998.

A crystallographic and molecular modelling study of the potencies of four diastereoisomers of peptidomimetic HIV-1 proteinase inhibitors. 18th European Crystallographic Meeting, Prague, August 15-20, 1998.

Resistance to antibiotic MDL 62,879 and amythiamicin: evidence for a novel binding mode to elongation factor Tu. 25th Silver Jubilee FEBS Meeting Copenhagen, Denmark, July 5-10, 1998 (FEBS 98 Abstracts, p. 141, Invited).

Towards crystallization of NO synthases. 3rd BMBF group-Meeting, Institute of Pharmacology and Toxicology, Julius-Maximilians University, Würzburg, May 20, 1998.

Towards the design of 3rd generation HIV proteinase inhibitors. 2. Jenaer Proteolysetag, Dornburg Thüringen, December 10, 1997.

Structure of *Thermus thermophilus* elongation factor Tu mutants lacking conserved histidine residues. Elongation Factor Meeting, Tällberg, September 17-20, 1997 (Poster).

Resistance elements in the elongation factors Tu from producers of EF-Tu-targeted antibiotics. Elongation Factor Meeting, Tällberg, September 17-20, 1997 (Poster).

Towards crystallization of NO synthases. 2nd BMBF group-Meeting, Hoechst Marion Roussel, Frankfurt a.M., June 10, 1997.

Protein-protein interactions in EF-TU*GDP crystals. Human Capital and Mobility Network on Molecular Mechanisms of Elongation Factor Tu, Island of Spetses, May 20-24, 1997 (Poster).

Elongation factor Tu as a target for antibiotics. Jahrestagung der Gesellschaft für Kristallographie, Hamburg, May 10-12, 1997.

Towards crystallization of NO synthases. 1st BMBF group-Meeting, Hoechst Marion Roussel, Frankfurt a.M., June 16, 1996.

Structural studies on *Thermus thermophilus* EF-Tu mutants and complexes. Jahrestagung der Deutsche Gesellschaft für Biophysik, Leipzig, September 18-20, 1996 (Best Poster Award)

Elongation factor Tu as a target for antibiotics. Jahrestagung der Deutsche Gesellschaft für Biophysik, Leipzig, September 18-20, 1996 (Poster).

Creating a hole in a protein: The three-dimensional structure of the C82A mutant of EF-Tu. 3rd EU-Network Meeting on Elongation factor Tu, a regulatory GTPase under normal and extreme growth conditions. Ischia, May 24-26, 1996.

Structural studies on mutants and complexes of EF-Tu. International conference Perspectives on Protein Engineering, Montpellier March 2-6, 1996.

- The three-dimensional structure of the complex between anthraniloyl-5'-adenosine monophosphate and *Thermus thermophilus* EF-Tu*GppNHp. 2nd EU-Network Meeting on Elongation factor Tu, a regulatory GTPase under normal and extreme growth conditions. Oegstgeest, June 30 - July 2, 1995.
- On the kirromycin resistance mechanism of mutant EF-Tu species. 1st EU-Network Meeting on Elongation factor Tu, a regulatory GTPase under normal and extreme growth conditions. Thurnau Bavaria, October 30 - November 1, 1994.
- Different molecular mechanisms of kirromycin resistance in EF-Tu mutants during protein synthesis. Stichting Scheikundig Onderzoek Nederland (SON), Lunteren, December 7-8, 1992.
- Fluoroaluminates and synergism between EF-Tu and EF-G on the ribosome. Meeting on EF-Tu and Ras P21, Thurnau Bavaria, November 3-5 1991.
- Trace amounts of fluoroaluminates inhibit protein biosynthesis via elongation factor - ribosome interactions. Stichting Scheikundig Onderzoek Nederland (SON), Lunteren, December 10-11, 1990.
